

For our Erfurt-Weimar Airport location, we are looking to fill the following position:

■ Aircraft Mechanic EASA Part-66 CAT B1 (m/f)

Your tasks

- Conducting scheduled and unscheduled maintenance activities on aircraft in the airframe/engine area
- Independently installing components onto assemblies according to technical drawings and work instructions
- Apportioning tasks to the employees and briefing on the work
- Installation tasks and function tests according to regulation
- Monitoring and inspecting the tasks conducted
- Triage of unscheduled maintenance tasks
- Conducting repairs in the airframe area, on structural parts (metal or fibre-composite)
- Correct documentation of all maintenance tasks

Your profile

- Several years of experience as Certifying Staff B1 in the servicing of large, civil aviation aircraft and their engines in the line and base maintenance area on the preferred aircraft types: • Gulfstream G550 • Challenger 604/605 • Global Express • Airbus A320
- Relevant knowledge of airframe structure
- Knowledge and experience with manufacturers' documentation (AMM and IPC)
- Good EDP skills especially with WINGS maintenance software (would be an advantage)
- Good knowledge of written and spoken English for correspondence
- Good knowledge of aviation regulations (LBA, EASA, FAA)
- Class B driver's license
- Confident decision-making and communication performance
- Readiness for team-oriented collaboration and employee leadership
- Great ability to work under pressure, flexibility, and a conscientious, proactive work approach
- Readiness for travel and shift duty

We look forward to receiving your complete application documentation – preferably by email – to jobs@haitec.aero including desired salary and possible start date.
