

For our Erfurt-Weimar Airport location, we are looking to fill the following position:

■ Aircraft Sheet Metal Worker (m/f)

Your tasks

- Conducting repairs on aircraft in the airframe and outer skin area
- Performing repairs on structural components in metal and fiber composite
- Independently installing components onto assemblies according to technical drawings and work instructions
- Dismounting and installing components
- Dealing with different materials such as aluminum and titanium alloys
- Setting blind rivets, fitting-bolt rivets and solid rivets; drilling, countersinking and reaming
- Application of joining techniques
- Determining part and material availability
- Conduct documenting tasks

Your profile

- Completed apprenticeship or training in a metal working trade such as metal worker, construction mechanic, plant mechanic, car mechanic or similar education
- Experience in the aviation industry is preferable
- Confident drawing reading and safe handling even of more recent standards and regulations
- Good EDP and PC application skills
- Good knowledge of written and spoken English
- Class B driver's license
- Comply with the requirements of a background check in accordance with LuftSiG
- Manual dexterity
- Confident decision-making and communication performance
- Readiness for team-oriented collaboration
- Great ability to work under pressure, flexibility and a conscientious, proactive work approach
- Readiness for travel and shift duty

We look forward to receiving your complete application documentation – preferably by email – to jobs@haitec.aero including desired salary and possible start date.
